

*Today...*

The **Project THRIVE** will increase individual opportunity, both stateside and abroad, through **sustainable educational resources and programs** that **engage children**, to then **empower families**.

*So that in ten years....*

Low income communities, both stateside and abroad, will **gain access to resources** that have the power to **improve their livelihood** and **break their cycle of poverty**.

*We do this through...*

**Strategic objectives:**

- increase opportunities to learn and grow both inside and outside of the school day
- foster a sense of belief in young children
- partner with outside organizations to provide educational resources that bring good to the communities we serve
- engage with families through first serving their children

**Anchored in our Core Values:**
